

Index to Volume 36

Authors and Titles

- Adams, M. *See* Andrews, R. 347
- Andrews, R., Kirby, G. C., and Adams, M.—
The population biology of a smut fungus,
Ustilago spinifidis. II. Isozyme
polymorphism and geographic
differentiation 347
- Ash, J.—
Demography and production of *Balaka
microcarpa* (Arecaceae), a tropical
understorey palm in Fiji 67
- Ashton, D. H. *See* Williams, R. J. 605
- Ashton, D. H., and Sandiford, E. M.—
Natural hybridisation between *Eucalyptus
regnans* and *E. macrorhyncha* in the
Cathedral Range, Victoria 1
- Ayre, D. J. *See* Carthew, S. M. 217
- Barker, M. J. *See* Lamont, B. B. 193
- Barker, S.—
Population structure of snow gum
(*Eucalyptus pauciflora*) subalpine woodland
in Kosciuszko National Park 483
- Barton, A. F. M. *See* Brooker, M. I. H. 119
- Bell, J. C. *See* Old, K. M. 355
- Bowman, D. M. J. S., Wilson, B. A., and
Dunlop, C. R.—
Preliminary biogeographic analysis of the
Northern Territory vascular flora 503
- Bradstock, R. A., and Myerscough, P. J.—
The survival and population response to
frequent fires of two woody resprouters
Banksia serrata and *Isopogon
anemonifolius* 415
- Brooker, M. I. H., Barton, A. F. M., Rockel,
B. A., and Tjandra, J.—
The cineole content and taxonomy of
Eucalyptus kochii and *E. plenissima*, with
an appendix establishing these two taxa as
subspecies 119
- Burdon, J. J. *See* Mao, Y. X. 589
- Burgess, I. P. *See* Griffin, A. R. 41
- Burrows, G. E., Doley, D. D., Haines, R. J.,
and Nikles, G.—
In vitro propagation of *Araucaria
cunninghamii* and other species of the
Araucariaceae via axillary meristems 665
- Calder, D. M. *See* Slater, A. T. 145
- Cantrill, D. J., and Douglas, J. G.—
Mycorrhizal conifer roots from the Lower
Cretaceous of the Otway Basin,
Victoria 257
- Carthew, S. M., Ayre, D. J., and Whelan,
R. J.—
High levels of outcrossing in populations of
Banksia spinulosa and *B. paludosa* 217
- Chilvers, G. A. *See* Mao, Y. X. 589
- Clarke, S. A.—
Seasonal growth and mortality of the pitchers
of the Albany pitcher plant, *Cephalotus
follicularis* 643
- Coates, D. J.—
Genetic diversity and population genetic
structure in the rare Chattering grass wattle,
Acacia anomala 273
- Crombie, D. S., and Milburn, J. A.—
Water relations of rural eucalypt
dieback 233
- Crombie, D. S., Tippet, J. T., and Hill, T. C.—
Dawn water potential and root depth of trees
and understorey species in south-western
Australia 621
- Cullen, P. J., and Kirkpatrick, J. B.—
The ecology of *Athrotaxis* (Taxodiaceae).
I. Stand structure and regeneration of *A.
cupressoides* 547
II. The distribution and ecological
differentiation of *A. cupressoides* and *A.
selaginoides* 561
- Davison, E. M., and Tay, C. S.—
Annual increment of *Eucalyptus marginata*
trees on sites infested with *Phytophthora
cinnamomi* 101
- Dewan, M. M., and Sivasithamparan, K.—
Occurrence of species of *Aspergillus* and
Penicillium in roots of wheat and ryegrass
and their effect on root rot caused by
Gaeumannomyces graminis var. *tritici* 701
- Dixon, K. W. *See* Meney, K. A. 711
- Doley, D. D. *See* Burrows, G. E. 665
- Douglas, J. G. *See* Cantrill, D. J. 257
- Dudzinski, M. J. *See* Old, K. M. 355
- Duke, N. C.—
Phenologies and litter fall of two mangrove
trees, *Sonneratia alba* and *S. caseolaris*, and
their putative hybrid, *S. x gulgai* 473
- Dunlop, C. R. *See* Bowman, D. M. J. S. 503
- Fleming, A. I., Williams, E. R., and Turnbull,
J. W.—

- Growth and nodulation of provenances of
Casuarina cunninghamiana inoculated with
a range of *Frankia* sources 171
- Forrester, R. I. See Wimbush, D. J. 287
- Griffin, A. R., Burgess, I. P., and Wolf, L.—
Patterns of natural and manipulated
hybridisation in the genus *Eucalyptus* — a
review 41
- Gadek, P. A., and Quinn, C. J.—
Pitting of transfusion tracheids in
Cupressaceae 81
- Hacker, J. B.—
Polyploid distribution and seed dormancy in
relation to provenance rainfall in the
Digitaria milanjiana complex 693
- Haines, R. J. See Burrows, G. E. 665
- Hardie, W. J., and O'Brien, T. P.—
Viewpoint: Considerations of the biological
significance of some volatile constituents of
grape (*Vitis* spp.) 107
- Hart, D. M.—
The plant opal content in the vegetation and
sediment of a swamp at Oxford Falls,
N.S.W., Australia 159
- Head, M. J., and Lacey, C. J.—
Radiocarbon age determinations from
lignotubers 93
- Hill, R. S. See Read, J. 131
- Hill, T. C. See Crombie, D. S. 621
- Hnatiuk, R. J., and Maslin, B. R.—
Phytogeography of *Acacia* in Australia in
relation to climate and species-
richness 361
- Hopper, S. D. See Sampson, J. F. 447
- James, S. H. See Sampson, J. F. 447
- Kirby, G. C.—
The population biology of a smut fungus,
Ustilago spiniifidis. I. Geographic
distribution and abundance 339
See also Andrews, R. 347
- Kirkpatrick, J. B. See Cullen, P. J. 547, 561
- Kobayashi, T. See Old, K. M. 599
- Lacey, C. J. See Head, M. J. 93
- Lamont, B. B., and Barker, M. J.—
Seed bank dynamics of a serotinous fire-
sensitive *Banksia* species 193
- Lange, R. T. See Reid, N. 299
- Mao, Y. X., Chilvers, G. A., and Burdon,
J. J.—
Computer modelling of damping-off
epidemics in relation to host density and
number of disease foci 589
- Maslin, B. R., and Pedley, L.—
Patterns of distribution of *Acacia* in
Australia 385
- Maslin, B. R. See Hnatiuk, R. J. 361
- McFarland, D. C.—
Fire and the vegetation composition and
structure of subtropical heathlands in
south-eastern Queensland 533
- McKone, M. J., and Webb, C. J.—
A difference in pollen size between the male
and hermaphrodite flowers of two species of
Apiaceae 331
- Meney, K. A., and Dixon, K. W.—
Phenology, reproductive biology and seed
development in four rush and sedge species
from Western Australia 711
- Milburn, J. A. See Crombie, D. S. 233
- Myerscough, P. J. See Bradstock, R. A. 415
- Nikles, G. See Burrows, G. E. 665
- O'Brien, T. P. See Hardie, W. J. 107
- Old, K. M., and Kobayashi, T.—
Eucalypts are susceptible to the chestnut
blight fungus, *Cryphonectria
parasitica* 599
- Old, K. M., Dudzinski, M. J., and Bell, J. C.—
Isozyme variability in field populations of
Phytophthora cinnamomi in Australia 355
- Palzer, C. See Wardlaw, T. J. 205
- Paton, D. C. See Vanstone, V. A. 519
- Paton, D. M.—
Genesis of an inverted treeline associated with
a frost hollow in south-eastern
Australia 655
- Pedley, L. See Maslin, B. R. 385
- Quinn, C. J. See Gadek, P. A. 81
- Ramsey, M. W.—
Floret opening in *Banksia menziesii*; the
importance of nectarivorous birds 225
- Read, J., and Hill, R. S.—
Comparative responses to temperature of the
major canopy species of Tasmanian cool
temperate rainforest and their ecological
significance. I. Foliar frost resistance 131
- Reid, N., and Lange, R. T.—
Host specificity, dispersion and persistence
through drought of two arid zone
mistletoes 299
- Rockel, B. A. See Brooker, M. I. H. 119
- Rouse, J. L. See Williams, E. G. 183
- Sampson, F. B., Williams, J. B., and
Woodland, P. H. S.—

- The morphology and taxonomic position of
Tasmania glaucifolia (Winteraceae), a new
Australian species 395
- Sampson, J. F., Hopper, S. D., and James,
S. H.—
Genetic diversity and the conservation of
Eucalyptus crucis 447
- Sandiford, E. M. See Ashton, D. H. 1
- Sedgley, M. See Sharman, K. V. 575
- Sharman, K. V., and Sedgley, M.—
Floral initiation and development in
Helipterum roseum and *Helichrysum*
bracteatum (Asteraceae) 575
- Shearer, B. L., and Tippet, J. T.—
Distribution and impact of *Armillaria*
luteobubalina in the *Eucalyptus marginata*
forest of south-western Australia 433
- Sinclair, R. See Whittington, J. 239
- Sivasithamparan, K. See Dewan, M. M. 701
- Slater, A. T., and Calder, D. M.—
The pollination biology of *Dendrobium*
speciosum: a case of false advertising? 145
- Smith-White, A. R.—
Sporobolus virginicus in coastal Australia: the
reproductive behaviour and the distribution
of morphological types and chromosome
races 23
- Tay, C. S. See Davison, E. M. 101
- Tibbits, W. N.—
Germination and morphology of progeny
from controlled pollinations of *Eucalyptus*
nitens 677
- Tippet, J. T. See Crombie, D. S. 621
- Shearer, B. L. 433
- Tjandra, J. See Brooker, M. I. H. 119
- Turnbull, J. W. See Fleming, A. I. 171
- Vanstone, V. A., and Paton, D. C.—
Extrafloral nectaries and pollination of *Acacia*
pycnantha by birds 519
- Vaughton, G.—
Pollination and seed set of *Banksia spinulosa*:
evidence for autogamy 633
- Warcup, J. H.—
Mycorrhizal associations and seedling
development in Australian Lobelioideae
(Campanulaceae) 461
- Wardlaw, T. J., and Palzer, C.—
Regeneration of *Eucalyptus* species in an
eastern Tasmanian coastal forest in the
presence of *Phytophthora cinnamomi* 205
- Webb, C. J. See McKone, M. J. 331
- Whelan, R. J. See Carthew, S. M. 217
- Whittington, J., and Sinclair, R.—
Water relations of the mistletoe, *Amyema*
miquelii, and its host *Eucalyptus*
fasciculosa 239
- Williams, E. G., and Rouse, J. L.—
Disparate style lengths contribute to isolation
of species in *Rhododendron* 183
- Williams, E. R. See Fleming, A. I. 171
- Williams, J. B. See Sampson, J. F. 395
- Williams, R. J., and Ashton, D. H.—
Cyclical patterns of regeneration in subalpine
heathland communities on the Bogong High
Plains, Victoria 605
- Wilson, B. A. See Bowman, D. M. J. S. 503
- Wimbush, D. J. and Forrester, R. I.—
Effects of rabbit grazing and fire on a
subalpine environment. II. Tree
vegetation 287
- Wolf, L. See Griffin, A. R. 41
- Woodland, P. H. See Sampson, J. F. 395
- Youatt, J.—
Duplication cycles in a non-septate fungus,
Allomyces macrogynus 315
DNA synthesis studied in later growth cycles
and in zoosporangium development of
Allomyces macrogynus 321
